

Venture 1:9 is excited to announce a strategic partnership with...

POSTMODERNPULPIT

You do the ministry. We do the webistry.

Websites can be frustrating, expensive, and ultimately disappointing for too many ministry leaders. Postmodern Pulpit creates ridiculously affordable, 100% done-for-you websites, so you never have to worry about your website again. You just focus on the ministry!

Service Offerings to Venture 1:9 Non-profits

Postmodern Pulpit offers 3 simple and affordable packages for Venture 1:9 non-profits:

- ❖ **New Website Build - Starting at \$499:** Get the website you've always wanted: beautiful, clean, and loaded with features like live streaming, blogging, messages, calendar, email sign-up, and more. Share your ministry's story with the world! Prices start ridiculously low for a template site, and even custom sites are a fraction of what else you'll find out there.
- ❖ **Website Management - \$60/month:** The real "genius" of Postmodern Pulpit is that once your website is built, we stick around and become your dedicated web team! We help with regular updates, upkeep, and overall functionality. You focus on the ministry, we'll focus on the webistry.
- ❖ **Email Newsletter Management - \$50/month:** Email newsletters are an effective way for ministries to stay in touch with their audience. The problem is managing systems like Mailchimp can be a pain point. We can become your newsletter management solution. Send us the copy, and we'll design and send a beautiful email, up to 2 emails per month!
